

## INDEX TO VOLUME 55

### Author Index

#### A

- ABILDSKOV, J. A., HISEY, B. L., AND INGERSON, W. E. The magnitude and orientation of ventricular excitation vectors in the normal heart and following myocardial infarction, 104  
ALBRIGHT, HOWARD. (*See* Duggan, Albright, and Murphy), 400  
ANDINO, A. M. DE, JR. (*See* Bernart and Andino), 231  
ARAVANIS, C. (*See* Luisada, Liu, Aravanis, Testelli, and Morris), 383  
AUGUST, THOMAS, MAZZELENI, ALBERTO, AND WOLFF, LOUIS. Positional and respiratory changes in precordial lead patterns simulating acute myocardial infarction, 706

#### B

- BACH, L. M. N. The organization of vaso-motor control by the central nervous system, 323  
BAKST, ALVIN A., CRASTNOPOL, PHILIP, TEICHER, IRA, SELINGER, HAROLD, AND KROOP, IRVING G. The successful correction of atrioseptal defects combined with transposition of the superior vena cava and aberrant pulmonary veins, utilizing the pump oxygenator, 615  
BARBATO, ENNIO, PILEGGI, FULVIO, DEBES, ANTONIO CARLOS, FUJIOKA, TOSHYASU, MAGALHÃES, MÁRIO S., TRANCHESI, JOÃO, SAN JUAN, EDGARD, AND DÈCOURT, LUIZ V. Study of the sequence of ventricular activation and the QRS complex of the normal human heart using direct epicardial leads, 867  
BARRETT, O'NEILL, JR., AND WALKER, WELDON J. Tetralogy of Fallot with absent left pulmonary artery: report of a case with anomalous development of the right hilar vasculature and non-functioning right lung, 356  
BARRY, KEVIN G. (*See* Mengis, Dublier, and Barry), 435  
BATES, D. V. (*See* Sekelj, Bates, Johnson, and Jegier), 810  
BECKER, R. A., SCHER, A. M., AND ERICKSON, R. V. Ventricular excitation in experimental left bundle branch block, 547  
BELLE, MARTIN S. Clinical experience with amisometradine (Rolicton) on ambulatory patients, 114  
BELLIN, L. (*See* Braun, Rosenberg, and Bellin), 754  
BENJAMIN, JULIEN E. (*See* Lev, Benjamin, and White), 198
- BEREZOWSKI, A. (*See* Segal and Berezowski), 443  
BERNART, W. F., AND ANDINO, A. M. DE, JR. Electrocardiographic changes in hypopituitarism of pregnancy, 231  
BHARGAVA, A. N. (*See* Fidler, Bhargava, and Parent), 881  
BIBER, DAVID (*See* Lewis, Sonnenblick, Gilbert, and Biber), 458  
BISTENI, ABDO. (*See* Sodi-Pallares, Pileggi, Cisneros, Ginefra, Portillo, Medrano, and Bisteni), 681  
BLUMBERG, BERNARD I. (*See* Pastor and Blumberg), 120  
BLUMENFELD, SERGE. (*See* Scherf, Blumenfeld, Gürbüz, and Jody), 733  
BOEHRER, JOHN J. (*See* Nichol, Keyes, Borg, Coogan, Boehrer, Mullins, Scott, Page, Griffith, and Massie), 142  
BORG, JOSEPH F. (*See* Nichol, Keyes, Borg, Coogan, Boehrer, Mullins, Scott, Page, Griffith, and Massie), 142  
BORHANI, NEMAT O., AND LEE, RICHARD E. Primary hypertension and hypertensive disease in early childhood, 796  
BRACHFIELD, JONAS, REALE, ATTILIO, AND GOLDBERG, HARRY. Pitfalls in the diagnosis of pulmonary hypertension, 905  
BRAUN, K., ROSENBERG, S. Z., AND BELLIN, L. The electrocardiogram of a camel, 754  
BRIGULIO, ALFRED E. (*See* Kistin, Evans, and Brigulio), 366  
BROWN, JOHN H. (*See* Wasserburger and Brown), 33  
BRUCE, ROBERT A. (*See* Herron, Foltz, Plum, Bruce, and Merendino), 129  
BRYANT, RAYMOND W. (*See* James and Bryant), 919  
BURCH, G. E., GOLDEN, LAWRENCE H., AND CRONVICH, J. A. An analysis of changes in the spatial vectorcardiogram with aging, 582

#### C

- CABRERA, ENRIQUE, GRACIA-FONT, ROBERTO, GAXIOLA, ALFONSO, AND PILEGGI, FULVIO. The vectorcardiogram of ventricular activation in chronic coronary heart disease, 557  
CAPELLER, DIETEGEN VON, AND STERN, THOMAS N. Acetyl strophanthidin used as a measure to evaluate the status of digitalization, 8  
CISNEROS, FERNANDO. (*See* Sodi-Pallares, Pileggi, Cisneros, Ginefra, Portillo, Medrano, and Bisteni), 681

- CLELAND, W. P. (*See* Zoob, Rockney, and Cleland), 328  
 COHEN, DONALD B., DOCTOR, LEROY, AND PICK, ALFRED. The significance of atrioventricular block complicating acute myocardial infarction, 215  
 COLVIN, JOHN. Electrical alternans: case report and comments on the literature, 513  
 COMESAÑA, FRANCISCO, NAVA, ARMANDO, FISHLER, BERNARDO L., AND SODI-PALLARES, DEMETRIO. The hypocholesterolemic effect of nicotinic acid, phenyl-ethyl-acetic acid amide, and a combination of both, in dogs. Preliminary communication, 476  
 COOGAN, THOMAS J. (*See* Nichol, Keyes, Borg, Coogan, Boehrer, Mullins, Scott, Page, Griffith, and Massie), 142  
 CRONVICH, J. A. (*See* Burch, Golden, and Cronvich), 582  
 CRASTNOPOL, PHILIP. (*See* Bakst, Crastnopol, Teicher, Selinger, and Kroop), 615

## D

- DEBES, ANTONIO CARLOS. (*See* Barbato, Pileggi, Debes, Fujioka, Magalhães, Tranchesi, San Juan, and Décourt), 867  
 DÉCOURT, LUIZ V. (*See* Barbato, Pileggi, Debes, Fujioka, Magalhães, Tranchesi, San Juan, and Décourt), 867  
 DIEHL, A. M. (*See* Lin, Diehl, Walker, Hall, and Peete), 463  
 DIEHL, ANTONI M. (*See* Lin, Diehl, and Kittle), 288  
 DOCTOR, LEROY. (*See* Cohen, Doctor, and Pick), 215  
 DORNEY, EDWARD R. (*See* Seavey and Dorney), 272  
 DOWER, G. E., AND OSBORNE, J. A. A clinical comparison of three VCG lead systems using resistance-combining networks, 523  
 DRESDALE, DAVID T., GREENE, MURRAY A., AND GUZMAN, SANTIAGO V. Clinical and hemodynamic effects of cortisone in patients with rheumatic heart disease and congestive heart failure, 851  
 —. (*See* Yuceoglu and Dresdale), 255  
 DRISCOL, THOMAS. (*See* Sancetta, Driscoll, and Hackel), 607  
 DUBILIER, WILLIAM. (*See* Mengis, Dubilier, and Barry), 435  
 DUGGAN, JOHN J., ALBRIGHT, HOWARD, AND MURPHY, THOMAS J. A bedside test for peripheral venomotor reactions with demonstration of a defect in portal cirrhosis, 400

## E

- ELDRIDGE, FREDERIC L. Reciprocal beating of the atria, 469  
 ENZINGER, JOSEF. (*See* Lange, Perchuk, Mahl, Enzinger, and Mouratoff), 73  
 ERICKSON, R. V. (*See* Becker, Scher, and Erickson), 547

- ESKWITH, IRWIN S. The holistic approach to angina pectoris, 621  
 EVANS, JOHN M. (*See* Kistin, Evans, and Brigilio), 366

## F

- FARRAND, E. ALLBAUGH. (*See* Horvath and Farrand), 631  
 FIDLER, A., BHARGAVA, A. N., AND PARENT, P. Clinical value of ballistocardiography, 881  
 FISCH, CHARLES. (*See* Pick and Fisch), 504  
 FISHLER, BERNARDO L. (*See* Comesáña, Nava, Fishler, and Sodi-Pallares), 476  
 FOLTZ, ELDON L. (*See* Herron, Foltz, Plum, Bruce, and Merendino), 129  
 FOWLER, NOBLE O. (*See* Franch and Fowler), 135  
 FRANCH, ROBERT H., AND FOWLER, NOBLE O. Ventricular septal defect related to ice-pick injury of the heart: report of a case studied by cardiac catheterization, 135  
 FRANCO, ALFREDO. Experimental heart failure in rabbits with hypertension, 239  
 FREIDMAN, LOUIS L. (*See* Husebye, Wolff, and Friedman), 662  
 FRICK, HEIKKI M. (*See* Hakkila, Frick, and Halonen), 758  
 FRIMPTER, GEORGE W., SCHERR, LAWRENCE, AND OGDEN, DAVID. The spatial vectorcardiogram in complete left bundle branch block with special reference to the initial component, 220  
 FUJIOKA, TOSHYASU. (*See* Barbato, Pileggi, Debes, Fujioka, Magalhães, Tranchesi, San Juan, and Décourt), 867

## G

- GARBER, PAULINE E. (*See* Jackson and Garber), 591, 637  
 GARCÍA-FONT, ROBERTO. (*See* Cabrera, García-Font, Gaxiola, and Pileggi), 557  
 GARDBERG, MANUEL, AND ROSEN, IRVING L. Observations on conduction in a case of intermittent left bundle branch block, 677  
 GAXIOLA, ALFONSO. (*See* Cabrera, García-Font, Gaxiola, and Pileggi), 557  
 GILBERT, LAWRENCE. (*See* Lewis, Sonnenblick, Gilbert, and Biber), 458  
 GINEFRA, PAULO. (*See* Sodi-Pallares, Pileggi, Cisneros, Ginefra, Portillo, Medrano, and Bistení), 681  
 GOLDBERG, HARRY. (*See* Brachfeld, Reale, and Goldberg), 905  
 —. (*See* Slonim and Goldberg), 349  
 GOLDBERG, MONTY J., AND McGREGOR, MAURICE. Persistent truncus arteriosus: report of a case with atypical radiologic features, 360  
 GOLDEN, LAWRENCE H. (*See* Burch, Golden, and Cronvich), 582  
 GRAYSON, R. R. Wandering liver and tachycardia, 252

- GREENE, MURRAY A. (*See* Dresdale, Greene, and Guzman), 851  
 GRIFFITH, GEORGE C. (*See* Nichol, Keyes, Borg, Coogan, Boehrer, Mullins, Scott, Page, Griffith, and Massie), 142  
 GRISWOLD, HERBERT E., JR. (*See* Hurst, Griswold, and Underwood), 701  
 GÜRBÜZER, BEDRI. (*See* Scherf, Blumenfeld Gürbüzter, and Jody), 733  
 GUZMAN, SANTIAGO V. (*See* Dresdale, Greene, and Guzman), 851

## H

- HACKEL, DONALD B. (*See* Sancetta, Driscoll, and Hackel), 607  
 HAKKILA, JUHA, FRICK, HEIKKI M., AND HALONEN, PENTTI I. Pericarditis and myocarditis caused by Toxoplasma: report of a case and review of the literature, 758  
 HALL, T. N. (*See* Lin, Diehl, Walker, Hall, and Peete), 463  
 HALONEN, PENTTI I. (*See* Hakkila, Frick, and Halonen), 758  
 HELLE, IVAR. (*See* Storstein, Helle, and Rokseth), 781  
 HERRON, PAUL W., FOLTZ, ELDON L., PLUM, FRED, BRUCE, ROBERT A., AND MERENDINO, K. ALVIN. Partial Brown-Séquard syndrome associated with coarctation of the aorta: review of literature and report of a surgically treated case, 129  
 HISEY, B. L. (*See* Abildskov, Hisey, and Ingerson), 104  
 HOFFMAN, JULIAN B., AND POMERANCE, MAX. Paroxysmal tachycardia with a rate of 345 in an adult, 126  
 HORVATH, STEVEN M., AND FARRAND, E. ALLBAUGH. Aortic obstruction and cardiac output, 631  
 HURST, WILLIAM W., GRISWOLD, HERBERT E., JR., AND UNDERWOOD, REX J. With the technical assistance of Dornbusch, Elizabeth A., and Bawden, Ruth A. Some cardiovascular and fluid change effects of intravenously administered diphtheria toxin in dogs, 701  
 HUSEBYE, KJELD O., WOLFF, HERMAN J., AND FREIDMAN, LOUIS L. Aortic dissection in pregnancy: a case of Marfan's syndrome, 662  
 HUSTON, J. R. (*See* Ryan, Oser, and Huston), 656

## I

- INGERSON, W. E. (*See* Abildskov, Hisey, and Ingerson), 104

## J

- JACKSON, ALBERT, AND GARBER, PAULINE E. Myxoma of the left atrium: report of three cases, 591  
 —, and —. Ostium primum, 637  
 JAMES, THOMAS N., AND BRYANT, RAYMOND W. Clinical value of simultaneous-lead electrocardiograms, 919

- JEGIER, W. (*See* Sekelj, Bates, Johnson, and Jegier), 810  
 JEGIER, WANDA. (*See* Sekelj, Jegier, and Johnson), 485  
 JODY, ALEXANDER. (*See* Scherf, Blumenfeld, Gürbüzter, and Jody), 733  
 JOHNSON, A. L. (*See* Sekelj, Bates, Johnson, and Jegier), 810  
 JOHNSON, ARNOLD L. (*See* Sekelj, Jegier, and Johnson), 485  
 JOHNSON, JOHN L. (*See* Joos and Johnson), 743  
 JOOS, HOWARD A., AND JOHNSON, JOHN L. Retrograde aortography under hypothermia in infancy and early childhood, 743  
 JOSEPHSON, AARON M. (*See* Shapiro, Lisker, Lichtman, and Josephson), 66

## K

- KALMANSOHN, RICHARD W. (*See* Kalmansohn and Kalmansohn), 739  
 KALMANSOHN, ROBERT B., AND KALMANSOHN, RICHARD W. An evaluation of the serum glutamic oxalacetic transaminase activity in pericarditis, 739  
 KARIV, I. Wolff-Parkinson-White syndrome simulating myocardial infarction, 406  
 KAY, EARLE B. (*See* Zimmerman and Kay), 791  
 KEYES, JOHN N. (*See* Nichol, Keyes, Borg, Coogan, Boehrer, Mullins, Scott, Page, Griffith, and Massie), 142  
 KISTIN, ALBERT D., EVANS, JOHN M., AND BRIGULIO, ALFRED E. Ebstein's anomaly of the tricuspid valve: anatomic confirmation of angiographic diagnosis, 366  
 KITTLE, C. FREDERICK. (*See* Lin, Diehl, and Kittle), 288  
 —. (*See* Santos and Kittle), 415  
 KLEINFELD, MORRIS, MILLES, SAUL, AND LIDSKY, MARTIN. Mumps pericarditis: review of the literature and report of a case, 153  
 KOWNACKI, ROMAN J. (*See* Kownacki and Kownacki), 535  
 KOWNACKI, VINCENT P., AND KOWNACKI, ROMAN J. Myocardial ischemia and its effect on the standard limb leads of the ECG, 535  
 KROOP, IRVING G. (*See* Bakst, Crastnopol, Teicher, Selinger, and Kroop), 615

## L

- LAKE, BERNARD. Cardiac vein thrombosis with myocardial hemorrhage, 157  
 LAMB, LAWRENCE E. Respiratory maneuvers in converting WPW syndrome to normal conduction and converting normal conduction to a WPW syndrome, 174  
 LANGE, KURT, PERCHUK, ELI, MAHL, MURRAY, ENZINGER, JOSEF, AND MOURATOFF, GEORGE. With the technical assistance of Demoleas, Peter. Anisindione: a new anticoagulant with unusual properties, 73

- LANGENDORF, RICHARD. Alternation of A-V conduction time, 181
- LEAHY, ROBERT H. (*See* Yu, Lovejoy, Schreiner, Leahy, Stanfield, and Walther), 926
- LEE, RICHARD E. (*See* Borhani and Lee), 796
- LEV, MAURICE, BENJAMIN, JULIEN E., AND WHITE, PAUL D. A histopathologic study of the conduction system in a case of complete heart block of 42 years' duration, 198
- LEWIS, SANFORD M., SONNENBLICK, BENJAMIN P., GILBERT, LAWRENCE, AND BIBER, DAVID. Familial pulmonary stenosis and deaf-mutism: clinical and genetic considerations, 458
- LICHTMAN, ALVIN M. (*See* Shapiro, Lisker, Lichtman, and Josephson), 66
- LIDSKY, MARTIN. (*See* Kleinfeld, Milles, and Lidsky), 153
- LIN, T. K., DIEHL, A. M., WALKER, J. W., HALL, T. N., AND PEETE, D. C. Unruptured congenital aortic sinus aneurysm with aneurysmal dilatation of the aorta and aortic regurgitation without arachnodactyly, 463
- , DIEHL, ANTONI M., AND KITTLE, C. FREDERICK. Hemodynamic complications in tetralogy of Fallot after pulmonary valvectomy or infundibulotomy (Brock procedure), 288
- LISKER, RUBEN. (*See* Shapiro, Lisker, Lichtman, and Josephson), 66
- LIU, C. K. (*See* Luisada, Liu, Aravanis, Testelli, and Morris), 383
- LOVEJOY, FRANK W., JR. (*See* Yu, Lovejoy, Schreiner, Leahy, Stanfield, and Walther), 926
- LUISADA, A. A., LIU, C. K., ARAVANIS, C., TESTELLI, M., AND MORRIS, J. On the mechanism of production of the heart sounds, 383
- M
- MCGREGOR, MAURICE. (*See* Goldberg and McGregor), 360
- MACIEJEWSKI, JOSEPH. Traumatic armour heart, 729
- MAGALHÃES, MÁRIO S. (*See* Barbato, Pileggi, Debes, Fujioka, Magalhães, Tranchesi, San Juan, and Décourt), 867
- MAHA, GEORGE E. (*See* Munroe, Maha, and Orgain), 343
- MAHL, MURRAY. (*See* Lange, Perchuk, Mahl, Enzinger, and Mouratoff), 73
- MAINLAND, DONALD. Notes on the planning and evaluation of research, with examples from cardiovascular investigations. Part I, 644
- . Notes on the planning and evaluation of research, with examples from cardiovascular investigations. Part II, 824
- . Notes on the planning and evaluation of research, with examples from cardiovascular investigations. Part III, 838
- MALT, RONALD A. Depressant effect of ether on the heart: a study with the ultralow-frequency force ballistocardiograph, 572
- MANGIARDI, JOSEPH L. (*See* Sullivan and Mangiardi), 450
- MARTINS DE OLIVEIRA, JORGE, AND ZIMMERMAN, HENRY A. The electrocardiogram in interatrial septal defects and its correlation with hemodynamics, 369
- MASSIE, EDWARD. (*See* Nichol, Keyes, Borg, Coogan, Boehrer, Mullins, Scott, Page, Griffith, and Massie), 142
- MAUREA, C., NYLIN, G., AND SOLLBERGER, A. A modified Nylin cardiorespiratory test employing a three-step portable staircase, 277
- MAZZELENI, ALBERTO. (*See* August, Mazzeleni, and Wolff), 706
- MEDRANO, GUSTAVO A. (*See* Sodi-Pallares, Pileggi, Cisneros, Ginefra, Portillo, Medrano, and Bisten), 681
- MENGIS, CHRIS L., DUBILIER, WILLIAM, AND BARRY, KEVIN G. The aortic arch syndrome of Takayasu, 435
- MERENDINO, K. ALVIN. (*See* Herron, Foltz, Plum, Bruce, and Merendino), 129
- MILLES, SAUL. (*See* Kleinfeld, Milles, and Lidsky), 153
- MISHRA, R. K. (*See* Selye and Mishra), 163
- MISRA, S. N. (*See* Sanghvi and Misra), 192, 421
- MORRIS, J. (*See* Luisada, Liu, Aravanis, Testelli, and Morris), 383
- MORROW, ANDREW G. (*See* Roshe and Morrow), 599
- MOURATOFF, GEORGE. (*See* Lange, Perchuk, Mahl, Enzinger, and Mouratoff), 73
- MUELLER, C. BARBER. The structure of the renal glomerulus, 304
- MULLINS, WILLIAM L. (*See* Nichol, Keyes, Borg, Coogan, Boehrer, Mullins, Scott, Page, Griffith, and Massie), 142
- MUNROE, COLIN A., MAHA, GEORGE E., AND ORGAIN, EDWARD S. Congenital mitral stenosis associated with coarctation of aorta, bicuspid aortic valve, hypoplasia of the left ventricle, mitral stenosis, auricular septal defect, and tricuspid valvular malformation, 343
- MURPHY, THOMAS J. (*See* Duggan, Albright, and Murphy), 400
- N
- NADAS, ALEXANDER S. (*See* Rudolph, Paul, Sommer, and Nadas), 424

## Subject Index

### A

- "Abnormal," normal variability of electrocardiogram as basis for differentiation between "normal" and, in clinical electrocardiography (Simonson), 80
- Acetyl strophantidin used as measure to evaluate status of digitalization (Capeller and Stern), 8
- Aconitine-induced atrial fibrillation, effect of hypercapnia on, and on ventricular fibrillation caused by focal cooling of rapidly beating ventricles of dog (Scherf et al.), 733
- Activation process, ventricular, ( $\bar{A}$ QRS), mean manifest electrical axis of, in congenital heart disease: new approach in electrocardiographic diagnosis (Sodi-Pallares et al.), 681
- ventricular, and QRS complex of normal human heart, study of sequence of, using direct epicardial leads (Barbato et al.), 867
- in chronic coronary heart disease, vectorcardiogram of (Cabrera et al.), 557
- Aging, analysis of changes in spatial vectorcardiogram with (Burch et al.), 582
- Alternans, electrical: case report and comments on literature (Colvin), 513
- Ambulatory patients, clinical experience with amisometradine (Rolicton) on (Belle), 114
- Amisometradine (Rolicton), clinical experience with, on ambulatory patients (Belle), 114
- Anemia, severe, loculated pleural effusion in congestive heart failure due to: report of case (Sanghvi and Misra), 421
- Anemias and lymphomas, patients with (Table XIII); clinical value of ballistocardiography (Fidler et al.), 892
- Aneurysm of pulmonary artery, primary pulmonary systolic hypertension associated with (Sancetta et al.), 607
- sinus, aortic, congenital, unruptured, with aneurysmal dilatation of aorta and aortic regurgitation without arachnodactyly (Lin et al.), 463
- Angina pectoris, holistic approach to (Eskwith), 621
- Angiocardiographic diagnosis, anatomic confirmation of: Ebstein's anomaly of tricuspid valve (Kistin et al.), 366
- Angiocardiography, persistent left superior vena cava demonstrated by (Pastor and Blumberg), 120
- Anisindione: new anticoagulant with unusual properties (Lange et al.), 73
- Announcements, 322, 483, 642, 804
- Anticoagulant, new, with unusual properties: Anisindione (Lange et al.), 73
- therapy, long-term, in coronary atherosclerosis (Nichol et al.), 142
- Aorta, coarctation of, bicuspid aortic valve, hypoplasia of left ventricle, mitral stenosis, auricular septal defect, and tricuspid valvular malformation, congenital mitral stenosis associated with (Munroe et al.), 343
- partial Brown-Séquard syndrome associated with coarctation of aorta: review of literature and report of surgically treated case (Herron et al.), 129
- unruptured congenital aortic sinus aneurysm with aneurysmal dilatation of and aortic regurgitation without arachnodactyly (Lin et al.), 463
- Aortic and mitral stenosis, direct left ventricular puncture in evaluation of (Yu et al.), 926
- arch syndrome (Segal and Berezowski), 443  
of Takayasu (Mengis et al.), 435
- dissection in pregnancy: case of Marfan's syndrome (Husebye et al.), 662
- obstruction and cardiac output (Horvath and Farrand), 631
- pulmonary and, valves, congenital stenosis of, with patent ductus arteriosus (Thomas), 724
- sinus aneurysm, congenital, unruptured, with aneurysmal dilatation of aorta and aortic regurgitation without arachnodactyly (Lin et al.), 463
- valve, bicuspid, coarctation of aorta, hypoplasia of left ventricle, mitral stenosis, auricular septal defect, and tricuspid valvular malformation, congenital mitral stenosis associated with (Munroe et al.), 343
- diseases, central and femoral pressure pulses in: quantitative and qualitative analysis (Roshe and Morrow), 599
- valves, stenotic mitral and, aid in calculation of orifice area of (Slonim and Goldberg), 349
- Aortography, retrograde, under hypothermia in infancy and early childhood (Joos and Johnson), 743
- Arachnodactyly, unruptured congenital aortic sinus aneurysm with aneurysmal dilatation of aorta and aortic regurgitation without (Lin et al.), 463
- Arch, aortic, syndrome (Segal and Berezowski), 443  
of Takayasu (Mengis et al.), 435
- Armour heart, traumatic (Maciejewski), 729
- Arrhythmias; clinical electrocardiography, Part I, 942 (B. Rev.)

- Arterial concentration of Evans blue dye, automatic electronic computer for estimation of (Sekelj et al.), 485
- embolism, systemic, 804 (B. Rev.)
- grafts, plastic, 162 (B. Rev.)
- Arteriosclerosis, coronary, with insufficiency (angina) (Table XVII); clinical value of ballistocardiography (Fidler et al.), 894
- experimental, prophylactic treatment of, with magnesium and potassium salts (Selye), 805
- Arteriosclerotic vascular disease, generalized, (including cerebral thrombosis), patients with (Table XV); clinical value of ballistocardiography (Fidler et al.), 893
- Arteriosus, truncus, persistent: report of case with atypical radiologic features (Goldberg and McGregor), 360
- Artery, pulmonary, incomplete rupture of, based on cystic medionecrosis (Rawson), 766
- left, absent, tetralogy of Fallot with: report of case with anomalous development of right hilar vasculature and nonfunctioning right lung (Barrett and Walker), 356
- primary pulmonary systolic hypertension associated with aneurysm of (Sancetta et al.), 607
- right, isolated congenital absence of: caution as to its diagnosis and proposal for its embryogenesis—report of case with review (Schneiderman), 772
- Arthritis (various forms) and Paget's disease of bone, patients with (Table X); clinical value of ballistocardiography (Fidler et al.), 891
- Atherosclerosis, coronary, long-term anticoagulant therapy in (Nichol et al.), 142
- Atresia, tricuspid, with right axis deviation: case report and review (Sullivan and Mangiardi), 450
- Atria, reciprocal beating of (Eldridge), 469
- Atrial fibrillation, aconitine-induced, effect of hypercapnia on, and on ventricular fibrillation caused by focal cooling of rapidly beating ventricles of dog (Scherf et al.), 733
- pressure pulse contour, left (Zoob et al.), 335
- right, of patients with heart failure, effect of tilting on (Ryan et al.), 656
- pressures, left, transbronchial measurement of, in mitral stenosis and insufficiency (Rubin and Shah), 55
- Atrioseptal defects combined with transposition of superior vena cava and aberrant pulmonary veins, successful correction of, utilizing pump oxygenator (Bakst et al.), 615
- Atrioventricular block complicating acute myocardial infarction, significance of (Cohen et al.), 215
- Atrium, left, myxoma of: report of three cases (Jackson and Garber), 591
- Auricular septal defect, coarctation of aorta, bicuspid aortic valve, hypoplasia of left ventricle, mitral stenosis, and tricuspid valvular malformation, congenital mitral stenosis associated with (Munroe et al.), 343
- A-V conduction time, alternation of (Langendorf), 181
- dissociation with concealed conduction and beats with short P-R interval and normal QRS complex in association with hypopotassemic pattern (Sanghvi and Misra), 192
- AVr—index of right ventricular preponderance: correlation of QRS patterns in AVr and right precordial leads with ventricular workload ratio (Wasserburger and Brown), 33
- Axis deviation, right, tricuspid atresia with: case report and review (Sullivan and Mangiardi), 450
- B**
- Ballistocardiograph, ultralow-frequency force, study with; depressant effect of ether on heart (Malt), 572
- Ballistocardiographie (valeur pratique) (practical value of ballistocardiography), 942 (B. Rev.)
- Ballistocardiography, clinical value of (Fidler et al.), 881
- Beating, reciprocal, of atria (Eldridge), 469
- Beats with short P-R interval and normal QRS complex, A-V dissociation with concealed conduction and, in association with hypopotassemic pattern (Sanghvi and Misra), 192
- Bias, risk of, from selection rates; notes on planning and evaluation of research, with examples from cardiovascular investigations. Part III (Mainland), 838
- Bicuspid aortic valve, coarctation of aorta, hypoplasia of left ventricle, mitral stenosis, auricular septal defect, and tricuspid valvular malformation, congenital mitral stenosis associated with (Munroe et al.), 343
- Block, atrioventricular, complicating acute myocardial infarction, significance of (Cohen et al.), 215
- bundle branch, left, complete, spatial vectorcardiogram in, with special reference to initial component (Frimpter et al.), 220
- experimental, ventricular excitation in (Becker et al.), 547
- intermittent, observations on conduction in case of (Gardberg and Rosen), 677
- ventricular pre-excitation (WPW) in presence of (Pick and Fisch), 504
- heart, complete, histopathologic study of conduction system in case of, of 42 years' duration (Lev et al.), 198
- Blood groups, human, and inheritance, 162 (B. Rev.)
- Book reviews, 161, 481, 642, 803, 942

Bowman's capsule, basement membrane of; structure of renal glomerulus (Mueller), 307  
 epithelium of; structure of renal glomerulus (Mueller), 310

Brown-Séquard syndrome, partial, associated with coarctation of aorta: review of literature and report of surgically treated case (Herron et al.), 129

Bundle branch block, left, complete, spatial vectorcardiogram in, with special reference to initial component (Frimpter et al.), 220  
 experimental, ventricular excitation in (Becker et al.), 547  
 intermittent, observations on conduction in case of (Gardberg and Rosen), 677  
 ventricular pre-excitation (WPW) in presence of (Pick and Fisch), 504

## C

Camel, electrocardiogram of (Braun et al.), 754

Capillaries in tuft, arrangement of; structure of renal glomerulus (Mueller), 305

Cardiac catheterization, fatality following, in patient with intracavitory cardiac mass (Svedberg and Storer), 27  
 report of case studied by; ventricular septal defect related to ice-pick injury of heart (Franch and Fowler), 135

gallop rhythm, clinical significance of (Sloan), 715

malformations, congenital, with cyanosis (Sodi-Pallares et al.), 682  
 without cyanosis (Sodi-Pallares et al.), 691

mass, intracavitory, fatality following cardiac catheterization in patient with (Svedberg and Storer), 27

output, aortic obstruction and (Horvath and Farrand), 631  
 in man, estimation of, by dye dilution method using automatic computing oximeter (Sekelj et al.), 810

vein thrombosis with myocardial hemorrhage (Lake), 157

Cardiaque, insuffisance (cardiac failure), 944 (B. Rev.)

Cardio-charting, 481 (B. Rev.)

Cardiopulmonary physiology, clinical, 161 (B. Rev.)

Cardiorespiratory test, Nylin, modified, employing three-step portable staircase (Maurea et al.), 277

Cardiovascular and fluid change effects, some, of intravenously administered diphtheria toxin in dogs (Hurst et al.), 701

investigations, notes on planning and evaluation of research, with examples from.  
 Part I (Mainland), 644  
 Part II (Mainland), 824  
 Part III (Mainland), 838

system, virus diseases and, 642 (B. Rev.)

Catheterization, cardiac, fatality following, in patient with intracavitory cardiac mass (Svedberg and Storer), 27

## Catheterization—Cont'd

report of case studied by: ventricular septal defect related to ice-pick injury of heart (Franch and Fowler), 135

Childhood, early, primary hypertension and hypertensive disease in (Borhani and Lee), 796

retrograde aortography under hypothermia in infancy and (Joops and Johnson), 743

Chirurgie des Herzens und Grossen Gefäße, 482 (B. Rev.)

Circulation, pulmonary, effect of theophylline ethylenediamine on (Storstein et al.), 781

Circulatory dynamics of patients with pulmonary hypertension, effects of tolazoline hydrochloride (Priscoline), on (Rudolph et al.), 424

Cirrhosis, portal, bedside test for peripheral venomotor reactions, with demonstration of defect in (Duggan et al.), 400

Coarctation of aorta, bicuspid aortic valve, hypoplasia of left ventricle, mitral stenosis, auricular septal defect, and tricuspid valvular malformation, congenital mitral stenosis associated with (Munroe et al.), 343  
 partial Brown-Séquard syndrome associated with: review of literature and report of surgically treated case (Herron et al.), 129

Commissurotomy, mitral, unusual postoperative complications of (Watts), 456

Compression of heart by anterior mediastinal tumor, pulmonic stenosis produced by (Winter), 18

Computer, electronic, automatic, for estimation of arterial concentration of Evans blue dye (Sekelj et al.), 485

Conduction, concealed, and beats with short P-R interval and normal QRS complex, A-V dissociation with, in association with hypopotassemic pattern (Sanghvi and Misra), 192

normal, respiratory maneuvers in converting WPW syndrome to, and converting normal conduction to WPW syndrome (Lamb), 174

observations on, in case of intermittent left bundle branch block (Gardberg and Rosen), 677

system, histopathologic study of, in case of complete heart block of 42 years' duration (Lev et al.), 198

time, A-V, alternation of (Langendorf), 181

Congestive heart failure, clinical and hemodynamic effects of cortisone in patients with rheumatic heart disease and (Dresdale et al.), 851

loculated pleural effusion in, due to severe anemia: report of case (Sanghvi and Misra), 421

Cooling, focal, of rapidly beating ventricles of dog, effect of hypercapnia on aconitine-induced atrial fibrillation and on ventricular fibrillation caused by (Scherf et al.), 733

- Cor triatriatum (Seavey and Dorney), 272  
 Coronariens, les angors, intrigues, 944 (B. Rev.)  
 Coronary atherosclerosis, long-term anticoagulant therapy in (Nichol et al.), 142  
 heart disease, chronic, vectorcardiogram of ventricular activation in (Cabrera et al.), 557  
 Cortisone, clinical and hemodynamic effects of, in patients with rheumatic heart disease and congestive heart failure (Dresdale et al.), 851  
 therapy, cardiovascular hemodynamics before and after (Tables III and IV) (Dresdale et al.), 854  
 clinical status before and after (Table I) (Dresdale et al.), 852  
 Coumadin Sodium and Dicumarol, comparative clinical study of, in patients with thromboembolic diseases (Shapiro et al.), 66  
 Cyanosis, congenital cardiac malformations with (Sodi-Pallares et al.), 682  
 without (Sodi-Pallares et al.), 691  
 Cyanotic congenital heart disease in one of identical twins: report of two cases (Yuceoglu and Dresdale), 255  
 Cystic medionecrosis, incomplete rupture of pulmonary artery based on (Rawson), 766
- D
- Data, collecting; notes on planning and evaluation of research, with examples from cardiovascular investigations. Part III (Mainland), 843  
 Deaf-mutism, familial pulmonary stenosis and: clinical and genetic considerations (Lewis et al.), 458  
 Depressant effect of ether on heart: study with ultralow-frequency force ballistocardiograph (Malt), 572  
 Deviation, axis, right, tricuspid atresia with: case report and review (Sullivan and Mangiardi), 450  
 Diabetes mellitus, patients with (Table VII); clinical value of ballistocardiography (Fidler et al.), 889  
 Diagnosis, laboratory clinical, 483 (B. Rev.)  
 Dicumarol, comparative clinical study of Coumadin Sodium and, in patients with thromboembolic diseases (Shapiro et al.), 66  
 Digitalis, 482 (B. Rev.)  
 Digitalization, acetyl strophanthidin used as measure to evaluate status of (Capeller and Stern), 8  
 Dilatation, aneurysmal, of aorta, unruptured congenital aortic sinus aneurysm with, and aortic regurgitation without arachnodactyly (Lin et al.), 463  
 Diphtheria toxin, intravenously administered, some cardiovascular and fluid change effects of, in dogs (Hurst et al.), 701  
 Dissection, aortic, in pregnancy: case of Marfan's syndrome (Husebye et al.), 662  
 Dissociation, A-V, with concealed conduction and beats with short P-R interval and normal QRS complex in association with hypototassemic pattern (Sanghvi and Misra), 192
- Diverticulum of left ventricle: case report with special reference to electrocardiographic findings (Powell), 518  
 Dye dilution method, estimation of cardiac output in man by, using automatic computing oximeter (Sekelj et al.), 810  
 Evans blue, automatic electronic computer for estimation of arterial concentration of (Sekelj et al.), 485
- E
- Ebstein's anomaly of tricuspid valve: anatomic confirmation of angiographic diagnosis (Kistin et al.), 366  
 ECG, myocardial ischemia and its effect on standard limb leads of (Kownacki and Kownacki), 535  
 Editorial, 643  
 organization of vasomotor control by central nervous system (Bach), 323  
 Effusion, pleural, loculated, in congestive heart failure due to severe anemia: report of case (Sanghvi and Misra), 421  
 Electrical alternans: case report and comments on literature (Colvin), 513  
 axis, mean manifest, of ventricular activation process ( $\bar{A}QRS$ ) in congenital heart disease: new approach in electrocardiographic diagnosis (Sodi-Pallares et al.), 681  
 Electrocardiogram in interatrial septal defects and its correlation with hemodynamics (Martins de Oliveira and Zimmerman), 369  
 normal variability of, as basis for differentiation between "normal" and "abnormal" in clinical electrocardiography (Simonson), 80  
 of camel (Braun et al.), 754  
 Electrocardiograms, simultaneous-lead, clinical value of (James and Bryant), 919  
 Electrocardiographic changes in dog during hypothermia (Santos and Kittle), 415  
 in hypopituitarism of pregnancy (Bernart and Andino), 231  
 diagnosis, new approach in; mean manifest electrical axis of ventricular activation process ( $\bar{A}QRS$ ) in congenital heart disease (Sodi-Pallares et al.), 681  
 findings, case report with special reference to; diverticulum of left ventricle (Powell), 518  
 Electrocardiography, clinical, normal variability of electrocardiogram as basis for differentiation between "normal" and "abnormal" in (Simonson), 80  
 Part I: Arrhythmias, 942 (B. Rev.)  
 Electrolytes, various, prevention of "phosphate-steroid-cardiopathy" by (Selye and Mishra), 163  
 Electronic computer, automatic, for estimation of arterial concentration of Evans blue dye (Sekelj et al.), 485  
 Embolism, arterial, systemic, 804 (B. Rev.)  
 Endothelium of glomerulus; structure of renal glomerulus (Mueller), 313

Epicardial leads, direct, study of sequence of ventricular activation and QRS complex of normal human heart using (Barbato et al.), 867

Epithelium of Bowman's capsule; structure of renal glomerulus (Mueller), 310  
of glomerulus; structure of renal glomerulus (Mueller), 310

Ether, depressant effect of, on heart: study with ultralow-frequency force ballistocardiograph (Malt), 572

Evaluation, notes on planning and, of research, with examples from cardiovascular investigations. Part I (Mainland), 644

Part II (Mainland), 824  
Part III (Mainland), 838

Evans blue dye, automatic electronic computer for estimation of arterial concentration of (Sekelj et al.), 485

Excitation vectors, ventricular, magnitude and orientation of, in normal heart and following myocardial infarction (Abildskov), 104

ventricular, in experimental left bundle branch block (Becker et al.), 547

#### F

Failure, heart, congestive, clinical and hemodynamic effects of cortisone in patients with rheumatic heart disease and (Dresdale et al.), 851

effect of tilting on right atrial pressure of patients with (Ryan et al.), 656  
experimental, in rabbits with hypertension (Franco), 239

Fallot, tetralogy of, hemodynamic complications in, after pulmonary valvectomy or infundibulotomy (Brock procedure) (Lin et al.), 288

with absent left pulmonary artery: report of case with anomalous development of right hilar vasculature and nonfunctioning right lung (Barrett and Walker), 356

Fibrillation, atrial, aconitine-induced, effect of hypercapnia on, and on ventricular fibrillation caused by focal cooling of rapidly beating ventricles of dog (Scherf et al.), 733

Fluid, some cardiovascular and, change effects of intravenously administered diphtheria toxin in dogs (Hurst et al.), 701

Frequency of distribution of electrocardiographic characteristics as basis for differentiation between normal subjects and patients (Simonson), 82

#### G

Gallbladder disorders, patients with (Table IX); clinical value of ballistocardiography (Fidler et al.), 890

Gallop rhythm, cardiac, clinical significance of (Sloan), 715

Gefässerkrankungen, Herz-und, 481 (B. Rev.)  
Glomerular stalk; structure of renal glomerulus (Mueller), 314

Glomerulus, basement membrane of; structure of renal glomerulus (Mueller), 308  
components of; structure of renal glomerulus (Mueller), 317  
endothelium of; structure of renal glomerulus (Mueller), 313  
epithelium of; structure of renal glomerulus (Mueller), 310  
renal, structure of (Mueller), 304  
Grafts, arterial, plastic, 162 (B. Rev.)  
Grossen Gefäße, Chirurgie des Herzens und, 482 (B. Rev.)

#### H

Heart, armour, traumatic (Maciejewski), 729  
block, complete, histopathologic study of conduction system in case of, of 42 years' duration (Lev et al.), 198

depressant effect of ether on: study with ultralow-frequency force ballistocardiograph (Malt), 572

disease, congenital, cyanotic, in one of identical twins: report of two cases (Yuceoglu and Dresdale), 255

mean manifest electrical axis of ventricular activation process (AQRS) in: new approach in electrocardiographic diagnosis (Sodi-Pallares et al.), 681

coronary, chronic, vectorcardiogram of ventricular activation in (Cabrera et al.), 557

rheumatic, and congestive heart failure, clinical and hemodynamic effects of cortisone in patients with (Dresdale et al.), 851

failure, congestive, due to disorders other than arteriosclerotic heart disease, patients with (Table XXIII); clinical value of ballistocardiography (Fidler et al.), 897

loculated pleural effusion in, due to severe anemia: report of case (Sanghvi and Misra), 421

effect of tilting on right atrial pressure of patients with (Ryan et al.), 656  
experimental, in rabbits with hypertension (Franco), 239

human, normal, study of sequence of ventricular activation and QRS complex of, using direct epicardial leads (Barbato et al.), 867

normal, magnitude and orientation of ventricular excitation vectors in, and following myocardial infarction (Abildskov et al.), 104

pulmonic stenosis produced by compression of, by anterior mediastinal tumor (Winter), 18

sounds, characteristics of (Luisada et al.), 383

on mechanism of production of (Luisada et al.), 383

surgery, open, hemodynamic results of: preliminary report (Zimmerman and Kay), 791

ventricular septal defect related to ice-pick injury of: report of case studied by cardiac catheterization (Franch and Fowler), 135

- Hemodynamic complications in tetralogy of Fallot after pulmonary valvectomy or infundibulectomy (Brock procedure) (Lin et al.), 288  
 findings at thoracotomy for mitral valve disease (Zoob et al.), 328  
 results of open heart surgery: preliminary report (Zimmerman and Kay), 791
- Hemodynamics, electrocardiogram in interatrial septal defects and its correlation with (Martins de Oliveira and Zimmerman), 369
- Hemorrhage, myocardial, cardiac vein thrombosis with (Lake), 157
- Herz und Kapillaren, Ultramikroskopische Bau von, 161 (B. Rev.)
- Herzens, Rhythmusstörungen des, 803 (B. Rev.)  
 und Grossen Gefäße, Chirurgie des, 482 (B. Rev.)
- Herz-und Gefässerkrankungen, 481 (B. Rev.)
- Hilar vasculature, right, report of case with anomalous development of, and non-functioning right lung: tetralogy of Fallot with absent left pulmonary artery (Barrett and Walker), 356
- Holistic approach to angina pectoris (Eskwith), 621
- Humoral "conditioning" for production of suppurative, acute myocarditis by oral administration of sodium phosphate (Selye), 1
- Hypercapnia, effect of, on aconitine-induced atrial fibrillation and on ventricular fibrillation caused by focal cooling of rapidly beating ventricles of dog (Scherf et al.), 733
- Hypertension, experimental heart failure in rabbits with (Franco), 239  
 primary, and hypertensive disease in early childhood (Borhani and Lee), 796  
 pulmonary, effects of tolazoline hydrochloride (Priscoline) on circulatory dynamics of patients with (Rudolph et al.), 424  
 pitfalls in diagnosis of (Brachfeld et al.), 905  
 systolic, pulmonary, primary, associated with aneurysm of pulmonary artery (Sancetta et al.), 607
- Hypertensive disease, primary hypertension and, in early childhood (Borhani and Lee), 796  
 (Table XIX); clinical value of ballistocardiography (Fidler et al.), 895
- Hyperthyroidism, patients with (Table XII); clinical value of ballistocardiography (Fidler et al.), 892
- Hypocholesterolemic effect of nicotinic acid, phenyl-ethyl-acetic acid amide, and combination of both, in dogs (Comena et al.), 476
- Hypopituitarism of pregnancy, electrocardiographic changes in (Bernart and Andino), 231
- Hypoplasia of left ventricle, coarctation of aorta, bicuspid aortic valve, mitral stenosis, auricular septal defect, and tricuspid valvular malformation, con-
- Hypoplasia of left ventricle—Cont'd  
 genital mitral stenosis associated with (Munroe et al.), 343
- Hypopotassemic pattern, A-V dissociation with concealed conduction and beats with short P-R interval and normal QRS complex in association with (Sanghvi and Misra), 192
- Hypothermia, electrocardiographic changes in dog during (Santos and Kittle), 415  
 retrograde aortography under, in infancy and early childhood (Joos and Johnson), 743
- Hypothyroidism, patients with (Table XI); clinical value of ballistocardiography (Fidler et al.), 891
- I
- Ice-pick injury of heart, ventricular septal defect related to: report of case studied by cardiac catheterization (Franch and Fowler), 135
- Illness, chronic, prevention of, vol. 1, 943 (B. Rev.)
- Incompetence, hemodynamic findings in mitral stenosis with (Zoob et al.), 335
- Infancy and early childhood, retrograde aortography under hypothermia in (Joos and Johnson), 743
- Infarction, myocardial, acute, positional and respiratory changes in precordial lead patterns simulating (August et al.), 706  
 significance of atrioventricular block complicating (Cohen et al.), 215  
 magnitude and orientation of ventricular excitation vectors in normal heart and following (Abildskov et al.), 104  
 Wolff-Parkinson-White syndrome simulating (Kariv), 406
- Infundibulectomy (Brock procedure), hemodynamic complications in tetralogy of Fallot after pulmonary valvectomy or (Lin et al.), 288
- Inheritance, human blood groups and, 162 (B. Rev.)
- Initial component, spatial vectorcardiogram in complete left bundle branch block with special reference to (Frimpter et al.), 220
- Injury, ice-pick, of heart, ventricular septal defect related to: report of case studied by cardiac catheterization (Franch and Fowler), 135
- Insufficiency, transbronchial measurement of left atrial pressures in mitral stenosis and (Rubin and Shah), 55
- Interatrial septal defect, hemodynamic results of open heart surgery in (Zimmerman and Kay), 791  
 defects, electrocardiogram in, and its correlation with hemodynamics (Martins de Oliveira and Zimmerman), 369
- Interventricular septal defect, hemodynamic results of open heart surgery in (Zimmerman and Kay), 793

Intracavitory cardiac mass, fatality following cardiac catheterization in patient with (Svedberg and Storer), 27  
 Intravenously administered diphtheria toxin in dogs, some cardiovascular and fluid change effects of (Hurst et al.), 701  
 Investigations, cardiovascular, notes on planning and evaluation of research, with examples from. Part I (Mainland), 644  
 Part II (Mainland), 824  
 Part III (Mainland), 838  
 questions for use in planning, and in evaluating reports (Mainland), 644  
 Ischemia, myocardial, and its effect on standard limb leads of ECG (Kownacki and Kownacki), 535

**K**

Kapillaren, Ultramikroskopische Bau von Herz und, 161 (B. Rev.)

**L**

Lead, precordial, patterns, positional and respiratory changes in, simulating acute myocardial infarction (August et al.), 706  
 systems, VCG, three, using resistance-combining networks, clinical comparison of (Dower and Osborne), 523  
 Leads, epicardial, direct, study of sequence of ventricular activation and QRS complex of normal human heart using (Barbato et al.), 867  
 limb, standard, of ECG, myocardial ischemia and its effect on (Kownacki and Kownacki), 535  
 precordial, right, correlation of QRS patterns in AVR and, with ventricular workload ratio: AVR—index of right ventricular preponderance (Wasserburger and Brown), 33  
 Limb leads, standard, of ECG, myocardial ischemia and its effect on (Kownacki and Kownacki), 535

Liver, wandering, and tachycardia (Grayson), 252

Losses and rejections; notes on planning and evaluation of research, with examples from cardiovascular investigations. Part III (Mainland), 847

Lung, right, nonfunctioning, report of case with anomalous development of right hilar vasculature and: tetralogy of Fallot with absent left pulmonary artery (Barrett and Walker), 356

**M**

Magnesium and potassium salts, prophylactic treatment of experimental arteriosclerosis with (Selye), 805  
 Marfan's syndrome, case of: aortic dissection in pregnancy (Husebye et al.), 662  
 Mass, cardiac, intracavitory, fatality following cardiac catheterization in patient with (Svedberg and Storer), 27

Mediastinal tumor, anterior, pulmonic stenosis produced by compression of heart by (Winter), 18  
 Medionecrosis, cystic, incomplete rupture of pulmonary artery based on (Rawson), 766  
 Membrane, basement, of Bowman's capsule; structure of renal glomerulus (Mueller), 307  
 of glomerulus; structure of renal glomerulus (Mueller), 308  
 Mitral, aortic and, stenosis, direct left ventricular puncture in evaluation of (Yu et al.), 926  
 commissurotomy, unusual postoperative complications of (Watts), 456  
 stenosis and insufficiency, transbronchial measurement of left atrial pressures in (Rubin and Shah), 55  
 aortic and/or, hemodynamic data from eight patients with (Table II) (Yu et al.), 928  
 congenital, associated with coarctation of aorta, bicuspid aortic valve, hypoplasia of left ventricle, mitral stenosis, auricular septal defect, and tricuspid valvular malformation (Munroe et al.), 343  
 effects of valvotomy in (Zoob et al.), 332  
 stenotic, and aortic valves, aid in calculation of orifice area of (Slonim and Goldberg), 349  
 valve disease, hemodynamic findings at thoracotomy for (Zoob et al.), 328  
 Mumps pericarditis: review of literature and report of case (Kleinfeld et al.), 153  
 Myocardial hemorrhage, cardiac vein thrombosis with (Lake), 157  
 infarction, acute, positional and respiratory changes in precordial lead patterns simulating (August et al.), 706  
 significance of atrioventricular block complicating (Cohen et al.), 215  
 magnitude and orientation of ventricular excitation vectors in normal heart and following (Abildskov et al.), 104  
 Wolff-Parkinson-White syndrome simulating (Kariv), 406  
 ischemia and its effect on standard limb leads of ECG (Kownacki and Kownacki), 535  
 Myocarditis, acute, suppurative, humoral "conditioning" for production of, by oral administration of sodium phosphate (Selye), 1  
 pericarditis and, caused by Toxoplasma: report of case and review of literature (Hakkila et al.), 758  
 Myxoma of left atrium: report of three cases (Jackson and Garber), 591

**N**

Nature's traps for research worker (Mainland), 644  
 Nervous system, central, organization of vaso-motor control by (Bach), 323  
 Networks, resistance-combining, clinical comparison of three VCG lead systems using (Dower and Osborne), 523

Nicotinic acid, phenyl-ethyl-acetic acid amide, and combination of both, hypcholesterolemic effect of, in dogs (Comesaña et al.), 476

"Normal" and "abnormal," normal variability of electrocardiogram as basis for differentiation between, in clinical electrocardiography (Simonson), 80

Nylin cardiorespiratory test, modified, employing three-step portable staircase (Maurea et al.), 277

### O

Obesity, exogenous, patients with (Table VIII); clinical value of ballistocardiography (Fidler et al.), 890

Obstruction, aortic, and cardiac output (Horvath and Farrand), 631

Open heart surgery, hemodynamic results of: preliminary report (Zimmerman and Kay), 791

Orifice area of stenotic mitral and aortic valves, aid in calculation of (Slonim and Goldberg), 349

Ostium primum (Jackson and Garber), 637

Oximeter, computing, automatic, estimation of cardiac output in man by dye dilution method using (Sekelj et al.), 810

Oxygenator, pump, successful correction of atrioseptal defects combined with transposition of superior vena cava and aberrant pulmonary veins, utilizing (Bakst et al.), 615

### P

Paroxysmal tachycardia with rate of 345 in adult (Hoffman and Pomerance), 126

Patent ductus arteriosus, congenital stenosis of pulmonary and aortic valves with (Thomas), 724

Pericarditis and myocarditis caused by Toxoplasma: report of case and review of literature (Hakkila et al.), 758 evaluation of serum glutamic oxalacetic transaminase activity in (Kalmansohn and Kalmansohn), 739

mumps: review of literature and report of case (Kleinfeld et al.), 153

Peripheral venomotor reactions, bedside test for, with demonstration of defect in portal cirrhosis (Duggan et al.), 400

Phenyl-ethyl-acetic acid amide, nicotinic acid, and combination of both, hypcholesterolemic effect of, in dogs (Comesaña et al.), 476

"Phosphate-steroid-cardiopathy," prevention of, by various electrolytes (Selye and Mishra), 163

Planning and evaluation of research, notes on, with examples from cardiovascular investigations. Part I (Mainland), 644

Part II (Mainland), 824

Part III (Mainland), 838

Plastic arterial grafts, 162 (B. Rev.)

Pleural effusion, loculated, in congestive heart failure due to severe anemia: report of case (Sanghvi and Misra), 421

Portal cirrhosis, bedside test for peripheral venomotor reactions, with demonstration of defect in (Duggan et al.), 400

Positional and respiratory changes in precordial lead patterns simulating acute myocardial infarction (August et al.), 706

Potassium salts, prophylactic treatment of experimental arteriosclerosis with magnesium and (Selye), 805

P-R interval, short and normal QRS complex, A-V dissociation with concealed conduction and beats with, in association with hypopotassemic pattern (Sanghvi and Misra), 192

Precordial lead patterns, positional and respiratory changes in, simulating acute myocardial infarction (August et al.), 706

leads, right, correlation of QRS patterns in AVR and, with ventricular workload ratio: AVR—index of right ventricular preponderance (Wasserburger and Brown), 33

Pre-excitation, ventricular, (WPW) in presence of bundle branch block (Pick and Fisch), 504

Pregnancy, aortic dissection in: case of Marfan's syndrome (Husebye et al.), 662 electrocardiographic changes in hypopituitarism of (Bernart and Andino), 231

Preponderance, ventricular right, index of—AVR: correlation of QRS patterns in AVR and right precordial leads with ventricular workload ratio (Wasserburger and Brown), 33

Pressure, atrial, right, of patients with heart failure, effect of tilting on (Ryan et al.), 656

pulses, central and femoral, in aortic valve diseases: quantitative and qualitative analysis (Roshe and Morrow), 599

Pressures, atrial, left, transbronchial measurement of, in mitral stenosis and insufficiency (Rubin and Shah), 55

Prophylactic treatment of experimental arteriosclerosis with magnesium and potassium salts (Selye), 805

Pulmonary and aortic valves, congenital stenosis of, with patent ductus arteriosus (Thomas), 724

artery, incomplete rupture of, based on cystic medionecrosis (Rawson), 766

left, absent, tetralogy of Fallot with: report of case with anomalous development of right hilar vasculature and nonfunctioning right lung (Barrett and Walker), 356

primary pulmonary systolic hypertension associated with aneurysm of (Sancetta et al.), 607

## Pulmonary artery—Cont'd

- right, isolated congenital absence of: causation as to its diagnosis and proposal for its embryogenesis—report of case with review (Schneiderman), 772
- circulation, effect of theophylline ethylenediamine on (Storstein et al.), 781
- diseases, acute and/or chronic, patients with (Table VI); clinical value of ballistocardiography (Fidler et al.), 889
- hypertension, effects of tolazoline hydrochloride (Priscoline) on circulatory dynamics of patients with (Rudolph et al.), 424
- pitfalls in diagnosis of (Brachfeld et al.), 905
- stenosis, familial, and deaf-mutism: clinical and genetic considerations (Lewis et al.), 458
- valvectomy or infundibulectomy (Brock procedure), hemodynamic complications in tetralogy of Fallot after (Lin et al.), 288
- veins, aberrant, successful correction of atrioseptal defects combined with transposition of superior vena cava and, utilizing pump oxygenator, 615
- Pulmonic stenosis, hemodynamic results of open heart surgery in (Zimmerman and Kay), 793
- produced by compression of heart by anterior mediastinal tumor (Winter), 18
- Pulseless disease, case report of, in Turkey (Sökmen), 433
- Pulses, pressure, central and femoral, in aortic valve diseases: quantitative and qualitative analysis (Roshe and Morrow), 599
- Pump oxygenator, successful correction of atrioseptal defects combined with transposition of superior vena cava and aberrant pulmonary veins, utilizing (Bakst et al.), 615
- Puncture, ventricular, left, direct, in evaluation of aortic and mitral stenosis (Yu et al.), 926
- heart rate, blood pressure, and arteriovenous oxygen difference before and during (Table I) (Yu et al.), 927

## Q

- QRS complex, normal, A-V dissociation with concealed conduction and beats with short P-R interval and, in association with hypopotassemic pattern (Sanghvi and Misra), 192
- study of sequence of ventricular activation and, of normal human heart using direct epicardial leads (Barbato et al.), 867
- patterns in AVr and right precordial leads, correlation of, with ventricular workload ratio: AVr—index of right ventricular preponderance (Wasserburger and Brown), 33
- Questions for use in planning investigations and in evaluating reports (Mainland), 644

## R

- Radiologic features, atypical, report of case with: persistent truncus arteriosus (Goldberg and McGregor), 360
- Reciprocal beating of atria (Eldridge), 469
- Regurgitation, aortic, without arachnodactyl, unruptured congenital aortic sinus aneurysm with aneurysmal dilatation of aorta and (Lin et al.), 463
- Renal glomerulus, structure of (Mueller), 304
- Reports, questions for use in planning investigations and in evaluating (Mainland), 644
- Research, notes on planning and evaluation of, with examples from cardiovascular investigations. Part I (Mainland), 644
- Part II (Mainland), 824
- Part III (Mainland), 838
- worker, Nature's traps for (Mainland), 644
- Resistance-combining networks, clinical comparison of three VCG lead systems using (Dower and Osborne), 523
- Respiratory infection, upper, acute, patients with (Table V); clinical value of ballistocardiography (Fidler et al.), 888
- maneuvers in converting WPW syndrome to normal conduction and converting normal conduction to WPW syndrome (Lamb), 174
- positional and, changes in precordial lead patterns simulating acute myocardial infarction (August et al.), 706
- Results, interpretation of; notes on planning and evaluation of research, with examples from cardiovascular investigations. Part II (Mainland), 824
- Retrograde aortography under hypothermia in infancy and early childhood (Joos and Johnson), 743
- Rheumatic fever, active (Table XX); clinical value of ballistocardiography (Fidler et al.), 896
- heart disease and congestive heart failure, clinical and hemodynamic effects of cortisone in patients with (Dresdale et al.), 851

- Rhythm, gallop, cardiac, clinical significance of (Sloan), 715

Rhythmusstörungen des Herzens, 803 (B. Rev.)

- Rupture, incomplete, of pulmonary artery based on cystic medionecrosis (Rawson), 766

## S

- Sample sizes; notes on planning and evaluation of research, with examples from cardiovascular investigations. Part III (Mainland), 841

- Septal defect, auricular, coarctation of aorta, bicuspid aortic valve, hypoplasia of left ventricle, mitral stenosis, and tricuspid valvular malformation, congenital mitral stenosis associated with (Munroe et al.), 343

## Septal defect—Cont'd

- ventricular, related to ice-pick injury of heart: report of case studied by cardiac catheterization (Franch and Fowler), 135
- defects, interatrial, electrocardiogram in, and its correlation with hemodynamics (Martins de Oliveira and Zimmerman), 369
- Serum glutamic oxalacetic transaminase activity in pericarditis, evaluation of (Kalmansohn and Kalmansohn), 739
- Simultaneous-lead electrocardiograms, clinical value of (James and Bryant), 919
- Sinus aneurysm, aortic, congenital, unruptured, with aneurysmal dilatation of aorta and aortic regurgitation without arachnodactyly (Lin et al.), 463
- Sodium phosphate, humoral "conditioning" for production of suppurative, acute myocarditis by oral administration of (Selye), 1
- Sounds, heart, on mechanism of production of (Luisada et al.), 383
- Spatial vectorcardiogram, analysis of changes in, with aging (Burch et al.), 582
- in complete left bundle branch block with special reference to initial component (Frimpter et al.), 220
- Staircase, portable, three-step, modified Nylin cardiorespiratory test employing (Maurea et al.), 277
- Stenosis, aortic and mitral, direct left ventricular puncture in evaluation of (Yu et al.), 926
- congenital, of pulmonary and aortic valves with patent ductus arteriosus (Thomas), 724
- mitral, and insufficiency, transbronchial measurement of left atrial pressures in (Rubin and Shah), 55
- congenital, associated with coarctation of aorta, bicuspid aortic valve, hypoplasia of left ventricle, mitral stenosis, auricular septal defect, and tricuspid valvular malformation (Munroe et al.) 343
- effects of valvotomy in (Zoob et al.), 332
- pulmonary, familial, and deaf-mutism: clinical and genetic considerations (Lewis et al.), 458
- pulmonic, produced by compression of heart by anterior mediastinal tumor (Winter), 18
- Stenotic mitral and aortic valves, aid in calculation of orifice area of (Slonim and Goldberg), 349
- Surgery, open heart, hemodynamic results of: preliminary report (Zimmerman and Kay), 791
- Syndrome, aortic arch (Segal and Berezowski), 443
- of Takayasu (Mengis et al.), 435
- Systolic hypertension, pulmonary, primary, associated with aneurysm of pulmonary artery (Sancetta et al.), 607

## T

- Tables, skeleton, of results; planning and evaluation of research. Part I (Mainland), 649
- Tachycardia, paroxysmal, with rate of 345 in adult (Hoffman and Pomerance), 126
- wandering liver and (Grayson), 252
- Takayasu, aortic arch syndrome of (Mengis et al.), 435
- Test, bedside, for peripheral venomotor reactions, with demonstration of defect in portal cirrhosis (Duggan et al.), 400
- Tetralogy of Fallot, hemodynamic complications in, after pulmonary valvectomy or infundibulectomy (Brock procedure) (Lin et al.), 288
- with absent left pulmonary artery: report of case with anomalous development of right hilar vasculature and nonfunctioning right lung (Barrett and Walker), 356
- Theophylline ethylenediamine, effect of, on pulmonary circulation (Storstein et al.), 781
- Thoracotomy for mitral valve disease, hemodynamic findings at (Zoob et al.), 328
- Three-step portable staircase, modified Nylin cardiorespiratory test employing (Maurea et al.), 277
- Thromboembolic diseases, comparative clinical study of Coumadin Sodium and Dicumarol in patients with (Shapiro et al.), 66
- Thrombosis, cardiac vein, with myocardial hemorrhage (Lake), 157
- Tilting, effect of, on right atrial pressure of patients with heart failure (Ryan et al.), 656
- Tolazoline hydrochloride (Priscoline) effects of, on circulatory dynamics of patients with pulmonary hypertension (Rudolph et al.), 424
- Toxoplasma, pericarditis and myocarditis caused by: report of case and review of literature (Hakkila et al.), 758
- Transbronchial measurement of left atrial pressures in mitral stenosis and insufficiency (Rubin and Shah), 55
- Traumatic armour heart (Maciejewski), 729
- Tricuspid atresia with right axis deviation: case report and review (Sullivan and Mangiardi), 450
- valve, Ebstein's anomaly of: anatomic confirmation of angiographic diagnosis (Kistin et al.), 366
- valvular malformation, congenital mitral stenosis associated with coarctation of aorta, bicuspid aortic valve, hypoplasia of left ventricle, mitral stenosis, auricular septal defect, and (Munroe et al.), 343
- Truncus arteriosus, persistent: report of case with atypical radiologic features (Goldberg and McGregor), 360

Tumor, mediastinal, anterior, pulmonic stenosis produced by compression of heart by (Winter), 18  
 Turkey, case report of pulseless disease in (Sökmen), 433  
 Twins, identical, cyanotic congenital heart disease in one of: report of two cases (Yuceoglu and Dresdale), 255

## U

Ultramikroskopische Bau von Herz und Kapillaren, 161 (B. Rev.)

## V

Valve, aortic, diseases, central and femoral pressure pulses in: quantitative and qualitative analysis (Roshe and Morrow), 599  
 mitral, disease, hemodynamic findings at thoracotomy for (Zoob et al.), 328  
 tricuspid, Ebstein's anomaly of: anatomic confirmation of angiographic diagnosis (Kistin et al.), 366  
 Valvectomy, pulmonary, or infundibulectomy (Brock procedure), hemodynamic complications in tetralogy of Fallot after (Lin et al.), 288  
 Valves, pulmonary and aortic, congenital stenosis of, with patent ductus arteriosus (Thomas), 724  
 stenotic mitral and aortic, aid in calculation of orifice area of (Slonim and Goldberg), 349  
 Valvotomy, effect of, on pulmonary artery mean pressure (Zoob et al.), 337  
 effects of, in mitral stenosis (Zoob et al.), 332  
 with incompetence (Zoob et al.), 336  
 Valvular diseases, rheumatic, chronic (Table XXI); clinical value of ballistocardiography (Fidler et al.), 896  
 malformation, tricuspid, congenital mitral stenosis associated with coarctation of aorta, bicuspid aortic valve, hypoplasia of left ventricle, mitral stenosis, auricular septal defect, and (Munroe et al.), 343  
 Variability, normal, of electrocardiogram as basis for differentiation between "normal" and "abnormal" in clinical electrocardiography (Simonson), 80  
 Varicose veins, clinical management of, 943 (B. Rev.)  
 Vasculation, hilar, right, report of case with anomalous development of, and non-functioning right lung: tetralogy of Fallot with absent left pulmonary artery (Barrett and Walker), 356  
 Vasomotor control, organization of, by central nervous system (Bach), 323  
 VCG lead systems, three, using resistance-combining networks, clinical comparison of (Dower and Osborne), 523

Vectorcardiogram of ventricular activation in chronic coronary heart disease (Cabrera et al.), 557  
 spatial, analysis of changes in, with aging (Burch et al.), 582  
 in complete left bundle branch block with special reference to initial component (Frimpter et al.), 220  
 Vectors, excitation, ventricular, magnitude and orientation of, in normal heart and following myocardial infarction (Abildskov et al.), 104  
 Vein, cardiac, thrombosis with myocardial hemorrhage (Lake), 157  
 Veins, pulmonary, aberrant, successful correction of atrioseptal defects combined with transposition of superior vena cava and, utilizing pump oxygenator (Bakst et al.), 615  
 Vena cava, left superior, persistent, demonstrated by angiography (Pastor and Blumberg), 120  
 superior, transposition of, and aberrant pulmonary veins, successful correction of atrioseptal defects combined with, utilizing pump oxygenator (Bakst et al.), 615  
 Venomotor, peripheral, reactions, bedside test for, with demonstration of defect in portal cirrhosis (Duggan et al.), 400  
 Ventricle, left, diverticulum of: case report with special reference to electrocardiographic findings (Powell), 518  
 hypoplasia of, coarctation of aorta, bicuspid aortic valve, mitral stenosis, auricular septal defect, and tricuspid valvular malformation, congenital mitral stenosis associated with (Munroe et al.), 343  
 Ventricles, rapidly beating, of dog, effect of hypercapnia on aconitine-induced atrial fibrillation and on ventricular fibrillation caused by focal cooling of (Scherf et al.), 733  
 Ventricular activation and QRS complex of normal human heart, study of sequence of, using direct epicardial leads (Barbato et al.), 867  
 in chronic coronary heart disease, vectorcardiogram of (Cabrera et al.), 557  
 process ( $\Delta$ QRS), mean manifest electrical axis of, in congenital heart disease: new approach in electrocardiographic diagnosis (Sodi-Pallares et al.), 681  
 excitation in experimental left bundle branch block (Becker et al.), 547  
 vectors, magnitude and orientation of, in normal heart and following myocardial infarction (Abildskov et al.), 104  
 fibrillation caused by focal cooling of rapidly beating ventricles of dog, effect of hypercapnia on aconitine-induced atrial fibrillation and on (Scherf et al.), 733  
 pre-excitation (WPW) in presence of bundle branch block (Pick and Fisch), 504

## Ventricular etc.—Cont'd

- preponderance, right, index of—AVr: correlation of QRS patterns in AVr and right precordial leads with ventricular workload ratio (Wasserburger and Brown), 33
- puncture, left, direct, in evaluation of aortic and mitral stenosis (Yu et al.), 926
- septal defect related to ice-pick injury of heart: report of case studied by cardiac catheterization (Franch and Fowler), 135
- workload ratio, correlation of QRS patterns in AVr and right precordial leads with: AVr—index of right ventricular preponderance (Wasserburger and Brown), 33

Virus diseases and cardiovascular system, 642  
(B. Rev.)

## W

- Wolff-Parkinson-White syndrome simulating myocardial infarction (Kariv), 406
- Workload, ventricular, ratio, correlation of QRS patterns in AVr and right precordial leads with: AVr—index of right ventricular preponderance (Wasserburger and Brown), 33
- WPW syndrome, respiratory maneuvers in converting, to normal conduction and converting normal conduction to WPW syndrome (Lamb), 174
